System Architecture | Design Systems | Software Development | SaaS
Progressive Web Apps (PWAs) | Agile Methodologies | Jira Software
Mentoring Developers | Code Reviews | PR Reviews

Professional Experience

Sept 2025 - Apr 2026

Storage Choice

Maroochydore, QLD

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Contracted by Absolute IT digital agency to deliver a high-traffic eCommerce website for Storage Choice (<https://storagechoice.com.au>), one of Australia's largest self-storage companies with 10 facilities in South East Queensland and a multi-million dollar annual turnover.
- Designed and developed the entire platform using Next.js, Strapi Headless CMS, Vercel, Redis and Figma. This included a modern design system, automated testing, reusable components, custom bookings system / checkout and complex integrations with third-party RESTful APIs.
- Automatically translated the website into 10 different languages using DeepL AI translation API. For example, you can view the website in Mandarin Chinese here: <https://storagechoice.com.au/zh-hant>

Technologies & Methodologies: Next.js | React.js | TypeScript | JavaScript | Node.js | Vercel | Strapi Headless CMS | CI/CD | RESTful API Integration | Automated Testing | React Testing Library | Jest | Redis | i18n Localization | Git | Github Actions | HTML | CSS | SASS | Figma | WCAG Accessibility (a11y) | DeepL API | LLM API Integration

Nov 2024 - Apr 2025

Good To Great Schools Australia

Cairns, QLD

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Designed and developed a modern design system to assist with the initial development of an educational software platform used by public and private schools nationwide.
- Created a Figma pattern library and full suite of reusable components made with React.js / Next.js (<https://ggsa-design-system.vercel.app>). This was then packaged as a private NPM repository for use by all development teams.
- Established the core development environments, configured CI/CD pipelines, implemented automated testing, defined coding standards, defined internal processes, performed code reviews and trained internal development teams.

Technologies & Methodologies: Next.js | React.js | TypeScript | JavaScript | Node.js | Vercel | PostgreSQL | CI/CD | RESTful API Integration | Automated Testing | React Testing Library | Jest | Code Reviews | PR Reviews | Git | Github Actions | HTML | CSS | Tailwind | Figma | WCAG Accessibility (a11y)

Aug 2024 - Nov 2024

Freelance (Short Contracts)

Remote, Australia

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Designed and developed a portfolio website for CoCreations (<https://cocreations.com.au>), an Australian mobile app development agency.
- Contracted by Dux Digital to develop a WordPress website for Richmind WA (<https://rw.org.au>), Western Australia's largest mental health services provider.

Technologies & Methodologies: WordPress | PHP | TypeScript | JavaScript | MySQL | Git | Github Actions | HTML | CSS | SASS | Figma | WCAG Accessibility (a11y)

Dec 2023 - Jul 2024

Betashares

Abbotsford, VIC

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Contracted by Webplace digital agency to serve as the Technical Lead for Betashares (<https://betashares.com.au>), an enterprise fund management company with \$75 billion in assets under management and over 1 million investors on their platform.
- Directed multiple cross-functional teams to deliver a complex modern design system and used this to create the entire client-facing Betashares website.
- Developed a large suite of reusable components, created a design pattern library in Figma, defined coding standards, configured CI/CD pipelines, performed high-traffic user testing / analytics and created detailed technical documentation.

Technologies & Methodologies: WordPress | PHP | TypeScript | JavaScript | MySQL | CI/CD | RESTful API Integration | Code Reviews | PR Reviews | Git | Github Actions | HTML | CSS | Tailwind | Figma | WCAG Accessibility (a11y)

Apr 2023 - Aug 2023

Narangba Timbers

Narangba, QLD

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Designed and developed a high-traffic eCommerce website for Narangba Timbers (<https://narangbatimbers.com.au>), one of Australia's largest timber suppliers with an annual turnover exceeding \$15 million.
- Developed a large suite of reusable components, configured CI/CD pipelines, defined coding standards, integrated with MYOB and Hubspot RESTful APIs.
- Delivered a highly successful online platform which increased user engagement and boosted online sales by over 30%.

Technologies & Methodologies: WordPress | WooCommerce | PHP | TypeScript | JavaScript | MySQL | CI/CD | RESTful API Integration | Git | Github Actions | HTML | CSS | SASS | Figma | WCAG Accessibility (a11y)

Nov 2021 - Jan 2023

Pressure Drop Records

Maleny, QLD

Director

- Founded and operated an independent brick-and-mortar vinyl record retail store.

Sep 2019 - Sep 2021

BuRPS

Caloundra, QLD

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Designed and developed a progressive web app for BuRPS (<https://burps.com.au>) to streamline communication, rostering, leave requests and training for staff members at over 250 IGA Supermarkets across Australia.
- Developed a suite of mobile-focused components aligned with Google Material Design (<https://jamenlyndon.com/demos/burps>), integrated with RESTful APIs, implemented CI/CD pipelines and performed real-world usability testing.

Technologies & Methodologies: PHP | TypeScript | JavaScript | MySQL | Progressive Web App (PWA) | CI/CD | RESTful API Integration | Google Material Design | Git | Github Actions | HTML | CSS | SASS | WCAG Accessibility (a11y)

Apr 2019 - Aug 2019

Polished Marketing

Cannon Hill, QLD

Senior Full Stack Developer, UX/UI Designer (Contractor)

- Designed and developed Shopify and Wordpress websites for Polished Marketing (<https://polished.com.au>), a well-known digital agency in Brisbane.

Technologies & Methodologies: WordPress | WooCommerce | Shopify | PHP | TypeScript | JavaScript | MySQL | CI/CD | RESTful API Integration | Git | Github Actions | HTML | CSS | SASS | WCAG Accessibility (a11y)

Nov 2017 - Mar 2019

GBST

Brisbane City, QLD

Senior Full Stack Developer (Permanent)

- Developed Ember.js frontend interfaces for a complex suite of wellness/investment software used by Vitality Group (<https://vitalitygroup.com>), the world's largest behavioral engagement platform with over 35 million members worldwide.
- Developed a reusable React.js "starter pack" adopted company-wide for all new projects, including reusable components, pre-configured development environments, automated testing, CI/CD pipelines and technical documentation.

Technologies & Methodologies: React.js | Ember.js | TypeScript | JavaScript | Node.js | CI/CD | RESTful API Integration | Automated Testing | React Testing Library | Jest | Code Reviews | PR Reviews | Git | Github Actions | HTML | CSS | SASS | WCAG Accessibility (a11y)
